

### Accessory

The SafeHome Wireless Alarm system can be divided into 8 zones – each with an unlimited amount of sensors, sirens and dial-up units.

Customize your alarm to fit your needs!

## Wireless PIR Motion Sensor

### Accessory for Wireless Alarm System WS300S/WS500S

The SafeHome Wireless PIR Motion Sensor is a sensor activated by heat emission. The sensor is also called a PIR or Passive Infra-Red sensor. The unit adapt to the temperature of the monitored area and if sudden temperature changes are detected - the alarm is triggered.

A bracket for mounting on ceiling or wall is included. The bracket can be adjusted so the desired angle and direction is obtained.

The sensor covers up to 6m in a 120° angle and can be set in 3 sensitivity levels. 9V alkaline battery is required and the the sensor has a low battery indicator.

## Features / KSP

- Triggers alarm when motion is detected
- Up to 100m range
- Adjustable sensitivity
- Easy Installation
- Long battery life
- Alarm sign Included

## Tech specs

- Low battery indicator
- Dimensions (mm) / weight (g):  
124/66/38, 79
- Battery: 1 x 9V Alkaline (not incl.)
- Frequency: 868 MHz
- With screws, plugs, adhesive tape

## Packing specs

- Blister pack, Eurohanger
- 4 language (UK, DK/SE/NO)

SafeHome Trådløse Rumføler er en bevægelses sensor, der aktiveres af ændringer i varmeafgivelse. Sensoren kaldes også en PIR eller Passive InfraRed sensor. Sensoren tilpasser sig temperaturen i det overvågede område og hvis en pludseligt opstået varmekilde opstår, vil sensoren registrere ændringen og udløse alarmeren.

Til sensoren medfølger en kuglebeslag til montering i loft eller på væg. Beslaget kan vinkles, så den ønskede vinkel og retning opnås. Sensoren kan dække et område på op til 6 meter i 120° og kan indstilles i 3 følsomhedsniveauer. Den trådløse rumføler benytter et 9V batteri, og vil ved lavt batteri blinke hurtigt i den indbyggede rød LED.
