

Personal Wireless Smoke Alarm V1.1.

Single or Linksystem • Photoelectric • 85 dB siren

The SafeHome Wireless Smoke Alarm V1.1. can operate independently or linked in a series. If one alarm is triggered – all smoke alarms in the series will be alerted and activate the sirens.

Connect a single Wireless Smoke Alarm in the series to a SafeHome Siren Sensor from the SafeHome Wireless Alarmsystem WS500S, to make all the Smoke Alarms part of your alarmsolution.

HOTLINE SUPPORT • YOUTUBE • FACEBOOK

Røgalarmen fungerer enkelvis eller tilkoblet trådløst sammen i serie. Hvis én alarm går, sender den til de andre røgalarmen i serien, som efterfølgende også afgiver alarm/sirene.

Hvis én af røgalarmen i serien tilkobles en SafeHome Sirene Sensor, kan denne kombination udløse Safehome Trådløse Alarmsystem så brugere kan blive adviseret via telefonen omkring røgdudvikling i hjemmet.

Accessory

Combine Smoke Alarms to a Siren Sensor, a Alarm System and a GSM Dialer/Controller. This way you can be alerted whenever smoke is detected!

Customize your alarm to fit your needs!

Features / KSP

- Single or linked connection
- Photoelectric
- Up to 30m range
- Easy Installation
- Long batterylife

Tech specs

- Material: White ABS
- Siren dB: app. 85 dB
- Dimensions (mm)/weight (g):
Alarm: Ø125/45, 128
- Battery:
 - 3 x 1,5V AA (not incl.)
 - 1 x 9V (not incl.)
- Frequency: 433 MHz
- With screws, plugs

Packing specs

- Blister pack, Eurohanger
- 4 language (UK, DK/SE/NO)
