

**Accessory**

The SafeHome Wireless Alarm system can be divided into 8 zones – each with an unlimited amount of sensors, sirens and dial-up units.

Customize your alarm to fit your needs!

## Wireless Siren - Outdoor & Indoor

### Accessory for Wireless Alarm System WS500S

The SafeHome Wireless Siren is mounted indoor or visibly outdoor on the house, garage, warehouse etc. to establish a preventive security.

When the alarm is triggered, the siren emits a 120 dB sounds and flashes - thereby alerting the surroundings of the burglary or panic situation.

The Wireless Siren is tamperproof, so the alarm will be triggered if the siren is taken down or opened while active.

Udendørs Sirene monteres synligt udendørs på hus, garage, lagerbygning el. lign. for at højne den præventive virkning. Når alarmen udløses lyder sirenen på 120dB og lampen blinker, hvorved omgivelserne gøres opmærksom på indbrud og/eller overfald.

Sirenen er udstyret med sabotagesikringer, der gør at sirenen udløses hvis forsøgt afmonteret eller åbnet, mens den er aktiveret.
